

LAND LINK DIRECTORY

UPDATED APRIL 2019

MIDWEST REGION

Renewing the Countryside: RTC navigators provide individualized assistance to farmers seeking land tenure in Iowa, Minnesota, and Wisconsin.

MOSES Land Link-Up: The Midwest Organic and Sustainable Education Service has a free online service in an effort to connect those looking for farmland with those looking to rent or sell.

LSP Seeking Farmers – Seeking Land Clearinghouse: An online listing, run by the Land Stewardship Project, for those seeking to rent or purchase land, and vice versa, in the Upper Midwest.

The Land Connection Classifieds: The Land Connection's classified section lists farmland opportunities throughout the Midwest.

Minnesota FarmLink: A searchable tool to connect prospective farmers with retiring farmers. Farmers may post properties for sale or rent, on-farm opportunities, or even a profile of their farming experience.

Michigan Farmer to Farmer: F2F is a land link website serving the Grand Traverse Region in Northwest Lower Michigan that connects farmland owners to seekers looking to buy or lease farmland.

Countryside Conservancy FarmLink: A listing of land opportunities in northeast Ohio.

Wisconsin Farm Center: A program of the Wisconsin Department of Agriculture, the Farm Center offers a Land Link program and other resources for beginning farmers.

Southwest Badger RC&D Grazing Broker: The Grazing Broker connects landowners with livestock producers in southwest Wisconsin, and also offers technical assistance.

Northeast Illinois FarmLink: Find farmland, farmers seeking land, and resource and event listings in northeast IL.

Iowa State University Ag Link: An Iowa-based service for connecting beginning farmers to retiring farmers. Not just a list of locations, but provides services throughout the process. There is a fee for non-residents.

Practical Farmers of Iowa Find a Farmer: A free service that maps out existing land opportunities and allows beginning farmers to post their land needs.

Sustainable Iowa Land Trust: The Sustainable Iowa Land Trust offers an informal list of SILT farms and farmers available for matching.

NORTHEAST REGION

New England Farmland Finder: A free database for farmland seekers and property holders managed by a consortium of New England farm service providers and non-profits.

New England Land Link: Run by the New England Small Farm Institute, NELL is a web-based listing of farm properties in New England and New York. Requires a \$25 annual fee to use.

Maine FarmLink: A program of Maine Farmland Trust that helps connect people who are seeking farmland, with farmland owners who are looking to sell, lease or work out non-traditional tenure arrangements, based on their respective interests, needs and goals.

Vermont Land Link: A free, state-wide land listing portal for Vermont landowners and farmland seekers.

Vermont Farmland Access Program: A land link program from the Vermont Land Trust that works to connect aspiring farmers with landowners in the state.

Connecticut Farmlink: A free website listing for registered farm owners and registered farm seekers in Connecticut, managed by the CT Department of Agriculture.

New York Farmland Finder: Helps farmers seeking land and landowners wanting to keep their land farming throughout New York State. The land linking map is supported by a statewide network of land access navigator organizations.

Hudson Valley Farmland Finder: The Hudson Valley Farmland Finder connects farmers and landowners, and additionally serves as a directory for regional events, resources, and organizations that assist with farmland access.

Columbia Land Conservancy: The Columbia County, NY conservancy offers a farmer-landowner match program in partnership with the Dutchess Land Conservancy.

Finger Lakes LandLink: A project of Cornell Cooperative Extension Tompkins County and Groundswell Center for Local Food and Farming which facilitates connections between land owners and farmers seeking land in the Finger Lakes region of NY.

New Jersey Land Link: Designed to help farmers and landowners connect through a database of farmland available, farming opportunities sought, and land characteristics and production goals.

Pennsylvania Farm Link: A land linking database which matches landowners with prospective entering farmers in Pennsylvania.

SOUTH REGION

Farmshare Land Link (Texas): Farmshare Land Link aims to match farmers to farmland in Central Texas, evaluate if a piece of property is appropriate for agriculture, and provide technical assistance to transition a farmer onto a new piece of property

Maryland FarmLINK: A program to help buyers and sellers of farmland. FarmLINK also connects novice farmers with mentors, offers workshops, and distributes useful information.

Land Link Montgomery: Montgomery County Land Link seeks to link beginner and experienced farmers with available land and farms within Montgomery County.

Virginia Farm Link: A platform for connecting retiring farmers to beginning farmers. The program also offers transitional services and educational programs.

NC FarmLink: NC FarmLink is a program of NC State Extension that connects farmers, landowners and service providers across North Carolina.

South Carolina Farm Link: SC Farm Link is a statewide farmland transition program administered by the SC Department of Agriculture.

TN Farm Link: Connects farmers who are seeking land to buy, lease, or manage, with landowners who are seeking to transfer land via lease, sale, or other arrangements.

Georgia FarmLink: GA FarmLink is a web tool co-developed by Athens Land Trust and statewide partners. It is collaboratively managed and supported by a network of partners across the state.

Florida FarmFinder: The Florida FarmFinder's searchable database provides listings of available farmland and farming opportunities, and profiles of farmers in search of mentoring and agricultural employment opportunities.

WEST REGION

California FarmLink: CA FarmLink links independent farmers and ranchers with the land and financing they need for a sustainable future. FarmLink helps farmers to build strong business skills, access fair financing, and establish secure land tenure.

Washington FarmLink: Washington FarmLink, a program of Tilth Alliance, helps ensure that working farms remain in agricultural production and helps facilitate the successful transition of farmland to the next generation.

Farm to Farmer: A Washington state land linking program run by PCC Land Trust.

Thurston Conservation District's South Sound FarmLink: Works to keep farmland in production in the South Sound, WA region for generations to come in such a way that is affordable and accessible to all interested farmers.

Oregon Farm Link: Connects beginning farmers and ranchers with land holders to help Oregon grow the next generation of family farmers. Also lists job opportunities and other resources.

Idaho Farm Link: A partnership of Rural Roots and University of Idaho Extension, Idaho Land Link connects landowners and land seekers with a searchable map.

Farm Link Montana: Connects Montana's beginning farmers and ranchers with the tools they need to succeed, including land, jobs and internships, and mentors.

South Dakota Farm Link: Farm Link is a free service administered by the South Dakota Department of Agriculture in cooperation with the SDSU Ag Extension Services.

Colorado Land Link: Colorado Land Link, a program of Guidestone Colorado, serves as a catalyst for convening conversations and resource development around the issues of land access and farm succession in Colorado.

New Mexico LandLink: New Mexico LandLink is for people seeking agricultural and local food resources, such as: land for agricultural use, agricultural work or learning opportunities, or agricultural apprentices, interns, or employees.

Alaska FarmLink: Alaska FarmLink helps connect the next generation of farmers to landowners with available farmland to sell or lease in Alaska.

Do you know of any land-linking programs that are missing from this list?
