

Sample Soil Amendment Application Log

Name of farm:

This log should be used to record soil amendments applied to fields on your farm. Use one log for each crop for each season.

Date:	Plot:	Crop:	Quantity Used:	Type of Amendment:	Date Planted:	Date Harvested:	Application Method:	Initials:

*This is the code name of the field/plot/row you have designated for that area (same as you will use in your traceability program).

For example, A is the field and 1 is the plot within that field.
